
The Wichita Falls Area Community Foundation receives charitable gifts, manages charitable assets and makes charitable grants through several types of funds, to help donors achieve their goals and help organizations plan for their long term financial security.

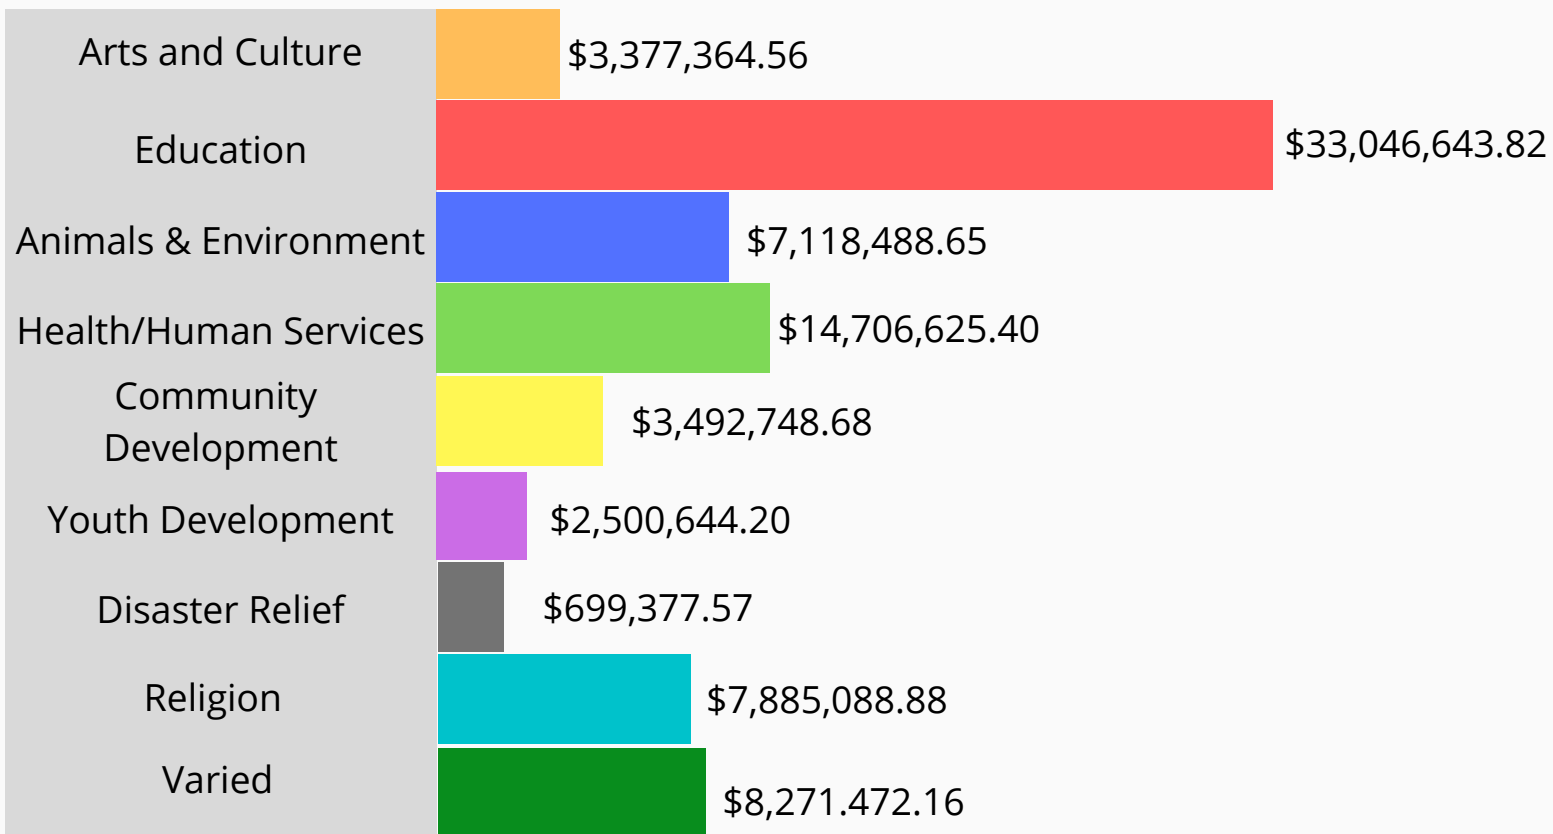

All numbers in this report have been audited.

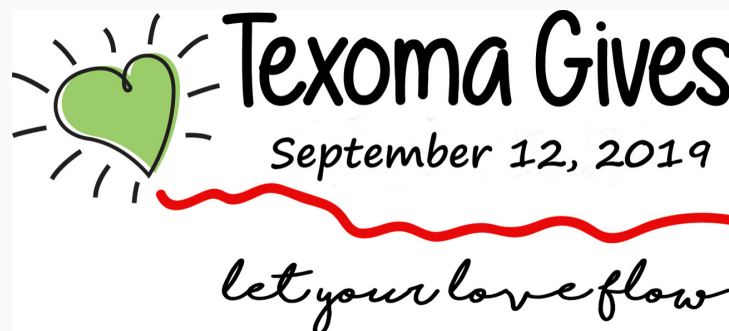

Grants Since Inception

\$80+ MILLION FROM 1999 TO 2018

The Wichita Falls Area Community Foundation launched in March 1999 when a small group of forward-thinking philanthropists turned their ideas into action, with a plan to address future nonprofit needs in the Wichita Falls area. Undeniably, their vision launched one of the most important charitable partnerships in this region.

The Foundation is also an important connector, convener, and cultivator for the region. The most visible impact is through Texoma Gives, a single day online giving partnership that, in just three short years, has raised over \$2.8 million for nonprofit organizations in north Texas and southern Oklahoma.
